

# BACK TO NORMAL

BACK TO NORMAL is what we are seeking for and we are glad to say that the dollar is rapidly getting there. Did you ever go to the well for water with a bucket that had big holes in it? Wasn't it exasperating to start off for the house or barn with a full pail and find that half of the water was lost before you got back with it? Well, that's the way it has been with the dollars for the past few years. They've had big holes in them. When you took them to the store to spend them, they lost half their value. For several years it seemed as though it took two or three times as many dollars to buy things as it did before the war. But our dollars have been undergoing health-building treatment for many months. The dollar is growing strong and sturdy again. We can't say that it is just as robust as before the war, but it is vastly stronger than a year ago. And in our store the dollar is stronger than it was even as recently as last month, which you can verify by calling and making your purchases here.

## SAVE 50c to \$5.00 on the next dress you make by using THE DELTOR

The Deltor is a new patented invention just brought out with BUTTERICK PATTERNS and Butterick alone. Among many other advantages it gives a "layout" prepared by trained experts for placing the pieces of the pattern in the size you buy on any width of material you buy and thereby saves for you one-eighth of a yard of material, more often one quarter and sometimes more.

Heretofore a pattern has been able to give only the amount of material which the average woman could use in laying out the pattern. It has not been possible to give the smallest amount on which experts could lay out the pattern because it is not safe to give the least possible quantity without giving the experts layout which permits this least possible quantity.

Now the Butterick Pattern with the Deltor gives the smallest amount which the best trained experts can use, and the Deltor in the Butterick Pattern shows the layout by which this is accomplished. This means that the Butterick Pattern will always save all that it costs and usually many times more than it costs.

## Corset Specials

Having just received quite a large shipment of Corsets, we have placed on sale at a very special price a number of discontinued lines. Perhaps you will find something that will just suit you amongst these styles and the price is only a fraction of their value.

## Madame—

We wish to draw your attention to the display of C/C à la Grâce Corsets which we are now holding.

All the season's new models are being shown in all sizes and in styles to suit every figure.

We recommend **à la Grâce Corsets**

because every model is in line with this season's newest styles, and because they are very durably made and so comfortable to wear.

We also invite you to see our display of Coats, Dresses Suits, Blouses and Lingerie.

## A Raincoat

MOST USEFUL GARMENT FOR EVERY-DAY WEAR

The changeable weather of the past week is the forerunner of what Spring has in store—when a light-weight Rainproof Coat will be exceedingly useful. Our display of raincoats for the new season includes smart belted effects in Navy, Grey and Tweed. Prices greatly reduced; each, priced from ..... \$8.50 to \$20.00

## ARMSFUL OF COLOR

BRIGHTEN SUMMER ROOMS

How the artistic housekeeper does love them, because they make her beauty work so easy and so satisfying. They supply the color that she wishes to apply, richly, or daintily harmonized; and in design to create subdued effects or bright and cheerful ones to liven up the dark room, or cool the effect of a warm one—and charming beauty with it all.

So many kinds—all so much lower in price than they were for so long. Per yard ..... 65¢ to \$4.50

## BRASSIERES

Good Fitting Brassieres made of strong repp and white or flesh; front or back fastening styles; sizes 32 to 42. Each... 75¢ to \$1.00

Perfect Fitting Brassieres of Flesh brocade cotton in back fastening style, each ..... \$1.75

## Quality Clothes At Lowest Reconstruction Prices

## FASHION-CRAFT

New models for Spring 1921 Crisp, fresh suits with the warmth of the finishing iron barely gone. The very last word of correct style and of fine tailoring.

We know we have to sell them at much lower prices than they would have fetched one year ago and we have marked them accordingly \$40.00 to \$75.00.

You will doubly appreciate the price after you have noted the quality. See them at:

Sold at 300 Exclusive Shops throughout Canada **Brumpton & Gaetz, Ltd.**

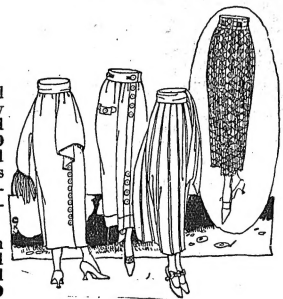

9-3-21

# BRUMPTON & GAETZ, Limited

## Surprisingly Smart are the New Sport Skirts

Neck and sleeves are finished with finishing braid, patch pockets and belts, each ..... \$1.50 Print House Dresses in all check and stripe designs, finished with "rick-rack" braid; prices from, each ..... \$1.50 to \$2.25 Japanese Crepe House Dresses in shades of Delf Blue, Rose and Saxe Blue with necks and kimono sleeves trimmed with stripe bands, each, priced at ..... \$4.00 All-over Dresses of Rose Crepe made with front panel and trimmed with white pipings at \$5.25

## GERMAN GOVERNMENT AMBASSADOR HANDED AN ULTIMATUM

TO ACCEPT OR REJECT TERMS BEFORE MAY 12.

London, May 5.—Members of the Supreme Allied Council shortly after 10 o'clock this morning signed an ultimatum to be dispatched to Germany, which embodied the definite reparations terms of the entente, gave details of the guarantees to be exacted and demanded that Germany accept or reject the Allied terms before May 12.

Dr. St. Hamer, German ambassador here, was immediately summoned to Downing street, and upon his arrival was handed a document containing the ultimatum to Germany. While the ultimatum and the broadcast signed by the council today was in the form of one document, only the former was given the German representative. The Allied Reparations Commission will, however, deliver the whole document to the German war burdens commission in Paris tomorrow.

NEW ELEMENT IN SITUATION The resignation of the Fehrenbach ministry at Berlin, on the eve of the signing of the ultimatum, has brought a new element into the situation. It was said last night that the German president had asked Chancellor Fehrenbach's cabinet to continue to function in dealing with "current affairs." This cabinet has consented to do so. Dr. Gustav Stresemann, leader of the People's party in Germany, was mentioned as being the probable successor of Konstantin Fehrenbach as chancellor. Dr. Stresemann was among the most bitter critics of the Fehrenbach ministry, and his party was reported early in March as exerting considerable pressure upon the government to bring about a break with the entente. It was said at the time that the People's party was urging the German government to demand that the Allies withdraw their forces from newly-occupied districts along the Rhine under the threat of breaking off diplomatic relations.

LLOYD GEORGE TO EXPLAIN Prime Minister Lloyd George planned to appear before the house of commons later in the day and explain the arrangements made for collecting reparations from Germany. "Our deliberations have had the result of bringing about the resignation of the German cabinet. Now the German government will be obliged to carry out the Versailles treaty." "We have made a great step in the direction of realities," was the declaration of M. Jasper, Belgian foreign minister.

COMPLETE TEXT OF ALLIED ULTIMATUM London, May 5.—The text of the allied ultimatum to Germany, after a brief introduction reciting Germany's unfulfilled treaty obligations with regard to disarmament, reparations, the trial of war criminals, and other matters, is in substance as follows: "The allied powers have decided: (a) To proceed from today with all necessary preliminary measures for the occupation of the Ruhr Valley by allied troops on the Rhine, under the conditions laid down. (b) In accordance with article 235 of the Versailles treaty to invite the allied reparations commission to notify the German government without delay of the time and methods for the discharge by Germany of her debt and to announce its decision on this point to the German government by May 6 at the latest. (c) To summon the German government to declare categorically within six days after receiving the above decision, its determination: (1) To execute without reservation or condition its obligation as defined by the reparations commission. (2) To accept and realize, without reservation or condition in regard to its obligations, the guarantees prescribed by the reparations commission. (3) To execute without reservation or delay measures concerning military, naval and aerial disarmament of which Germany was notified by the allied nations in their note of January 29, those measures in the execution of which they have so far failed to comply with are to be completed immediately and the remainder on a date still to be fixed. (4) To proceed without reservation or delay to the trial of war crimes and also with other parts of the Versailles treaty which have yet been unfulfilled. (5) To proceed on May 12 with the occupation of the Ruhr Valley, and to undertake all other military and naval measures, should the German government fail to comply with the foregoing conditions. This occupation will last as long as Germany continues her failure to fulfill the conditions laid down.

ment of which Germany was notified by the allied nations in their note of January 29, those measures in the execution of which they have so far failed to comply with are to be completed immediately and the remainder on a date still to be fixed. (4) To proceed without reservation or delay to the trial of war crimes and also with other parts of the Versailles treaty which have yet been unfulfilled. (5) To proceed on May 12 with the occupation of the Ruhr Valley, and to undertake all other military and naval measures, should the German government fail to comply with the foregoing conditions. This occupation will last as long as Germany continues her failure to fulfill the conditions laid down.

## TO SAVE IS EASY

Saving is a most beneficial habit, and an easy one to acquire.

Place a certain amount of your income in this Bank at regular intervals. Deposits have a marvelous way of growing and in a short time you will have a Savings Account of four figures.

## RUBBER SLUMPS

## TO BELOW COST OF PRODUCTION

Over-Production and World-Wide Business Depression Cause of This.

Over-production and world-wide business depressions have combined to produce a stagnancy in the rubber market from which the principal hope of permanent relief is in the discovery of new uses for rubber, according to the National Bank of Commerce in New York. Possibilities appear to exist in the industry which would not only absorb surplus stocks, but would restore it to a sound basis for future, the bank says in the May number of its magazine, Commerce Monthly.

Over-production has reduced the price of rubber to less than twenty cents a pound, which is less than a third of the price prevailing from 1913 to 1918, and compares with three dollars a pound, which was reached in 1910," says the bank. "With the constant increase of the supplies made available by the East Indian plantations the price has declined steadily, with minor fluctuations, until now it is below the cost of production on most if not all the estates where it is grown. Curtailed output may remedy the situation of the growers temporarily, but the chief hope for permanent relief lies in the fact that rubber is a comparatively new commodity for which new uses are constantly being developed.

"The United States consumes over two-thirds of the world's rubber, but except for a relatively small amount grown in the Philippines, produces none. Great Britain, through ownership either of the plantations or of the territories whose estates are located, controls about four-fifths of the plantation output. During the present depression stocks of raw rubber have stacked up in the United States, in the Far East and in Britain. Doubtless the surplus stocks now in America will eventually be used here, but much of the supply in Great Brit-

ain, no less than that in Singapore, has yet to find its ultimate market.

## RECKLESS ACCUMULATION

"The net imports of India rubber into the United States in 1920 were equal to 75 per cent. of the world's total production in that year. They exceeded the total production of any year prior to 1917. For many years the United States has been the chief rubber consumer, but notwithstanding increased demands for rubber manufactures for both the domestic and foreign markets, the figures indicate an almost reckless accumulation of stocks here in 1919 and 1920, following the removal of import restrictions made necessary by the scarcity of shipping during the war.

"Although rubber is manufactured into a great variety of different articles, one American concern alone being reported as making nearly 30,000 different products, more than two-thirds, and at times more than four-fifths, of all the crude rubber consumed in the United States, enters into the manufacture of tires and tubes.

"The development of the rubber industry in the United States is far ahead of that in any other country. Consequently the growth of the American export trade in rubber goods, especially since the close of the war, has been remarkable. The domestic market, however, continues to absorb the bulk of the rubber products, for although the value of rubber goods produced in 1920 was probably in excess of \$1,000,000,000, the value of the exports in 1920 was \$55,337,000, or less than one-tenth of the total output. The main feature of the export trade in 1920 was the broadening of the market, tires being sent in quantity to a great number of different countries, many of which had never bought any considerable number of American tires before.

## OVER-PRODUCTION HALTED

"Although the low prices for rubber now prevailing are partially due to the world-wide business depression, and also are influenced by the lack of buying power on the part of Germany and Russia, both large consumers before the war, the slump is primarily due to over-production. To remedy this situation a voluntary scheme of curtailing output by 25 per cent.

## ITEMS OF INTEREST

A Hudson's Bay engineer constructed a set of airplane propellers out of slough boards when a big monoplane crashed near Fort Simpson on the way to the Fort Norman fields.

Premier Meighen plans to sail for England at an early date, it is reported.

"We are hoping that the new method of handling the liquor traffic will work out as predicted," remarked Hon. John Oliver, prime minister of British Columbia, who is visiting Toronto.

The search for a direct descendant of James McGill, founder of the McGill university, may prove successful, it is reported.

A. R. Mosher, grand president of the Canadian Brotherhood of Railway Employees, has issued a statement on the present unemployment situation. Actual work on the proposed \$50,000,000 international bridge connection between Windsor and Detroit is expected to commence within the next six months. It will take six years to construct.

R. B. Teakle, general manager of the Canadian government merchant marine, stated that the Canadian Explorer had become stranded at Salouka on April 23.

The combined districts of Fort William and Rainy River went wet by a vote of 661 it is reported.

About 200 of the striking building trades union men returned to work on Tuesday at Hamilton, Ont.

The Army and Navy Veterans of Kingston have decided to challenge the right of the Canadian government to levy an amusement tax on army and navy veterans and to make a test case in the courts if necessary.

The finances of the C.P.R. are in excellent shape, according to a report issued by the head office at Montreal.

The Foxes Construction company of Fort William has been given the contract to build a 1,800,000 bushel elevator in Brooklyn, N.Y.

Joseph Lafabre, employed by the city of Ottawa as a public works department driver, fell 80 feet into the Ottawa river and escaped without a scratch. The horse went ashore.

The Canadian-Australasian steamer, Niagara, is expected to dock at Vancouver from Sydney, N.S.W., with 700 passengers, including Premier Massey of New Zealand.

There has been undertaken by a considerable group of plantation operators in Malaya have gone even further by requesting the local authorities for legislative restriction production by 50 per cent.

## RHEUMATISM FOR OVER 16 YEARS

## No Return Of The Trouble Since Taking "Fruit-a-tives"

109 CHURCH ST., MONTREAL.  
"I was a great sufferer from Rheumatism for over 16 years. I consulted specialists; took medicine; used lotions; but nothing did me good. Then I began to use 'Fruit-a-tives'. In 15 days the pain was easier and the Rheumatism much better. Gradually, 'Fruit-a-tives' overcame my Rheumatism, and now, for five years, I have had no return of the trouble. I cordially recommend this fruit medicine to all sufferers."

P. H. Mc HUGH.  
50c a box, 6 for \$2.50, trial size 25c. At all dealers or sent postpaid by Fruit-a-tives Limited, Ottawa.

## BIG COMET SIGHTED

Winnipeg's comet, the periodic comet which approaches the earth at intervals of five years and eight months, and will come "very near" to the earth in June, according to the prediction of Dr. Crommelin, an English astronomer, has been sighted by Prof. E. E. Barnard of the Yerkes Observatory, at Williams Bay, Wis. Astronomers have been watching for Winnipeg's comet for several weeks. It was originally discovered in 1882. It moves in an elliptic orbit around the sun, taking five years and eight months to complete the circuit. So far it has never come within several million miles of the earth in its periodic visits. How near it will approach this time, astronomers will probably soon be able to compute with accuracy. At present Winnipeg's comet cannot be seen except through a large telescope.

## NATIVES THOUGHT THEMSELVES INVISIBLE

The revolt of the natives in the equatorial district of the Belgian Congo last month, during which fifty trading posts were burned, was fomented by a native pretending to have discovered a charm making his possessor invisible and invulnerable, according to advices received from official sources in the Congo. The natives sold the charms to credulous natives, whose faith in them seemed to be confirmed when troops attempting to quell the excitement fired into the air. The natives, finding themselves injured, became uncontrollable, and widespread use of troops was necessary to stamp out the resulting trouble. It will take several months to restore order entirely without bloodshed.

## EXAMINER'S REVIEW OF PROVINCIAL MARKETS

Calgary, May 6.

Cattle—Beef is about half a dollar higher this week at Calgary, and a fairly large run was cleaned up promptly. The feature of the week was half a dozen steers, averaging 1,400 lbs. each, sold at \$9.50; they were a splendid lot, and show what proper feeding will do. Choice steers, \$7.50 to \$8; good, \$6.50 to \$7.25; medium, \$5.50 to \$6.50; common steers going as feeders. Choice cows, \$5.75 to \$6.75; good, \$5.00 to \$5.75; medium, \$4.50 to \$5.50; common, \$3.25 to \$4.00; canners, \$2.00 to \$3.25. Bulls weaker, with tops at \$4.00. Calves scarce, but good ones would bring \$8.00. Stockers and feeders rather slow, and prices easier. Feeder steers, \$5.50 to \$5.75; stockers, \$5.50 down; stocker heifers, \$4.00 to \$5.00. This stuff looks cheap. Edmonton market this week enhanced over a load of heifers which sold Wednesday at \$7.50, splendidly finished stuff that averaged 1,200 lbs. of beef were light, and the market 25c and 50c higher on the good stuff. Choice steers, \$7 to \$8; good, \$6.25 to \$7; medium, \$5 to \$6; choice cows, \$5.50 to \$6.50; good, \$5 to \$5.50; medium, \$4.50 to \$5; common and canners, \$3 to \$3.50. Bulls, \$3.50 down. Calves scarce, tops \$10 down. Stocker and feeder demand light, owing to the fact that feeder steers, \$5 to \$5.50, stockers, \$4 to \$4.50; stocker heifers, \$3 to \$4.50; stocker cows, \$3 to \$4. Receipts light, but quality good.

Hogs—Prices improved during the week at Calgary, and other grains following. Monday, \$12.50; Tuesday, \$12.50; Wednesday, \$12.50; Thursday, \$12.50; Friday, \$12.50; Saturday, \$12.50. Receipts, \$12.50 to \$13.00.

Some choice hams made \$10.50 at Edmonton, but prices on hams may run a little lower than a week ago.

Wide swing in wheat prices during the week, and other grains following the movement. Milling and export demand on wheat governing the market. Crop conditions in Alberta very favorable. Some delay owing to wet weather, but nothing serious. Average will not be very greatly reduced, but more wheat, less oats going in.

All dairy products greatly reduced. Creamery butter in cartons, 50c to 55c, and may lose another 5c next week; cream at stations and creamery reduced 5c, making creamery prices 25c, 22c and 20c; stations 4c under. Dairy butter also reduced, with fancy tabled 20c to 25c; straight receipts, 15c to 20c. All outside butter markets still under Alberta. Eggs moving freely at \$7.00, and storing general; trade fears competition of cheap surplus eggs from U.S. Poultry firm, fowl 22c to 25c; roosters, 15c to 18c. Potatoes drugging, \$13.00 to \$15.00 country points.

Dairy products quotations at Edmonton are lowered considerably. With the cream butter in cartons at 41c, and another cut likely. Butter cut at receiving stations now 31c, 28c and 25c, and if butter goes lower another drop may be looked for. Dairy butter 20c, and predictions of another 5c drop; some new butter coming in. Eggs took another drop on Friday. No eggs can be shipped at present prices, and surplus going into storage. Poultry prices a little lower, with fowl 20c and roosters 15c; turkeys, 32c.

Hay—Timothy slightly higher, \$22.00 to \$23.00 to farmers at country points; best upland \$17.00, and down to \$14.00. Demand light, not much offering.

Wool—Not much tone to eastern market; prices 14c to 18c.

Hides—Market showing no improvement, and prices holding 2c to 3c.

Furs—Market steady, with fair demand for beavers and muskrats; other lines somewhat neglected.

Practically no sales at city auctions. With early start on seedling farmers are apparently not increasing number of their teams.

FOR SALE—Complete restaurant outfit, including the following: Buffet with bevel glass mirror, lunch counter and stools, electric fixtures, safe, cash register, silent vacuum, 36 chairs, 12 dining room tables, refrigerator, large double oven range, mirrors, electric sign, coffee urn, a quantity of kitchen and other utensils, full line of crockery, etc., etc. The above can be bought at less than half price for immediate sale. Apply N. White, Box 456, Red Deer. Apr. 20.

## TWO MILLION ARE OUT OF WORK IN UNITED KINGDOM

Unemployment Statistics Are Reaching an Appalling Figure, It is Stated.

London, May 5.—Nearly 2,000,000 people are out of work, according to the unemployment statistics issued by the labor department of the board of trade this week. Official records show that 88,000 people were thrown out of employment during the past week. While the rapid increase in unemployment is largely attributed to the miners' strike, the contrast between war conditions, when the workhouses were called upon to supply labor, and the present situation, is making a painful impression upon the public mind. Socialist and labor papers cite the employment figures as an indictment of the present system of things and something of a sensation has been caused by the action of the House of Commons on the 2nd inst. in declining to approve the expropriation of children to Canada. Furthermore, the council declared that children who have been sent to the dominions should be restored to the land of their rightful heritage.

## CROSSROADS U. F. W. A.

The regular meeting of the U. F. W. A. was held at the home of Mrs. Bevan on April 27.

Several of the members were absent due to the usual rush this time of the year.

The customary procedure of responding to the roll call by reading short items of interest, was dispensed with, to allow more time for a lengthy program. Mrs. Robson, who was delegate to the political convention, was also down on the yearly program for a paper on Duties of Trustees. She proved herself equal to the double demand by her thorough report on both subjects, as well as her ability to answer questions in the discussions which followed her papers.

Mrs. Garvey and Mrs. Willey were enrolled as new members. It was very wisely decided to limit the lunch to sandwiches and one kind of cake. Though there has been no evidence of the spirit of competition in the serving of lunches, yet we do not wish to become a burden to the very busy mother. Mrs. Munn very kindly offered her house for the next meeting.

WEDNESDAY, MAY 11th, 1921.  
CHEER UP!

**Victoria Times:**  
Those doleful preachers of Empire decay and financial disaster should take something to cheer them in yesterday's announcement from London that the new seven per cent. Indian loan of seven and a half million pounds brought applications for no less a sum than twenty millions during the five hours in which the bank was open for business. The rush of subscribers is regarded as something almost unprecedented and so insistent was the demand for prospectuses that a totally insufficient supply forced the bank authorities to recruit a staff of girls to type hundreds of additional copies. Apart from the obvious inference that there is plenty of money in Great Britain merely awaiting the subsidence of the industrial storm and the return to more stable economic conditions throughout the world in general, the marvelous response of subscribers to this particular loan suggests to the average mind that the British investor's estimate of India's troubles is considerably lower than is popularly supposed. It goes without saying that the various banking institutions—whose facilities to gauge political undercurrents need no emphasis—whose invariably dominate an application list of this character are not frequently given to buying a pig in a poke.

#### THE SHAUGHNESSY PLAN

**Saskatoon Phoenix:**  
A document which will cause a great deal of discussion has just been given to the public. It is a suggestion by Baron Shaughnessy, former president of the Canadian Pacific Railway and now chairman of the board of directors of that company, of a means whereby the government can meet the railway problem that it is facing.

Briefly, the suggestion is that the government lease the Canadian Pacific in perpetuity, on the basis of a fixed dividend to the shareholders, incorporate the Canadian Pacific in the government railways, and give the whole system, 21,000 miles of railway to the Canadian Pacific Company to manage and operate in trust for the Canadian people. Along with the railway lines would go, of course, all the express, telegraph, lake and river steamers, while so forth; while the mining, ocean steamship, land and other interests of the company, now kept in separate account, would be segregated and administered by a separate company.

The plan, as a whole, deserves, and undoubtedly will receive the careful consideration and study of the government and the Canadian people. The railway problem is a tremendous one, closely affecting the welfare and prosperity of every citizen. It will not be improved by neglect, but must be dealt with vigorously and immediately.

#### BRITISH FINANCE

It is impossible to withhold admiration from the way in which Great Britain has cleaned house financially after the war. In public finance she is already not merely making revenue balance expenditure, but is making surpluses into the billions of dollars which she has left on her hands.

Her portion of the Allied debt to the United States is not, so to speak, a personal liability. It is simply carried by assets in the form of debts owed to her. As soon as the financial tangle over German reparations is straightened out, Great Britain will be on her feet again, and in a much shorter time than would have been thought possible, in her old position as the financial centre of the world.

In private finance, Great Britain has contrived to find an enormous sum of money for investment abroad during the past year. Presumably it has been invested in countries where the British pound is at a premium. The pound is slowly but inexorably moving back to the gold par of ex-

change. Except for this process of appreciation, which is very slow, exchange is stable, which is all that matters to commerce, though not to transactions involving the transfer of fixed capital or the payment of interest.

Great Britain's supremacy in ship building and mercantile marine is completely restored. She can both build ships more cheaply and operate them more economically than any other country. In certain directions, and for certain specified purposes in aid of national development, there is a future for the Canadian merchant marine and a good future, but not as a competitor in the general ocean-carrying trade. The same is true of the U. S. merchant marine.

The crisis of unemployment and trade depression has been desperately severe in Great Britain. But the vital respects, in which public and private finance are bearing the strain, make it sure that she will weather the storm.

#### IS IT A COINCIDENCE?

The nearest approach to Russian Sovietism on this continent is in North Dakota, where there have been in recent years some bold socialist experiments—co-operative stores and marketing, a state banking system for the benefit of farmers, state insurance of various kinds, state four mills, etc. And now, financial and business conditions in North Dakota more closely resemble those in Soviet Russia than do those anywhere else on this continent. Is it only a coincidence?—Hamilton Herald.

#### THE VOICE OF VERNER

Verner (Ontario) put itself on the map in the recent Ontario referendum when it went west by the somewhat convincing vote of 254 to 0.

Verner has since been the subject of much discussion, and many and diverse have been the theories offered in explanation of its citizens' singular unanimity.

The secret has not yet been disclosed. One man's guess seems to be that as good as another's. Probably the only observation about the place in which most people will concur is that in the event of Ontario's return to the sale of wet goods Verner will be regarded as a fair risk for anyone who happens to be looking for a license.

**HOW DO YOU SUPPLY YOUR EVERY DAY WANTS?**

When you want to hire help or sell a farm, buy a horse or find stray cattle, your quickest way is a Herald Classified advertisement. They carry your message to thousands of interested readers every night. Probably very little and they get results. The next time you have a want to fill quickly write out your ad and send it to the Herald Want Ad Department. You will get instant courteous service.

#### IS JAPAN PLANNING ACTION ON SOVIET?

Riga, May 5.—The Izvestia, of Moscow, prints a report that Japan is planning a decisive action against the Soviets. The newspaper declares the plan includes the bringing of the army of General Wrangel to Siberia via Japan, the army to join the forces of Gen. Semenov, the anti-Bolshevik leader.

The Izvestia asserts that the Japanese military attaché in Paris dined recently with Russian officers there and promised them aid.

#### DEATH OF JOHN HALVARSON

Mr. John Halvarson, an old and respected resident of Burnt Lake, for twenty-four years, died at his home on Friday at the age of 61 years, after being in failing health for about a year. Mr. Halvarson was born in Sweden in 1856, and came to Burnt Lake in 1894, which has been his home ever since except for three years, 1901-4, in Washington state. He leaves a widow and three children, viz. Mrs. John Hillberg, Twin Falls, Idaho, and Hilda and Nicholas at home. There was a large attendance at the funeral Tuesday afternoon to Burnt Lake cemetery. The pallbearers were A. Lindholm, P. Olsen, J. Lindholm, E. Johansson, C. A. Pearson, and L. Peterson.

#### IDLE THOUGHTS OF A BUSY FARMER

At a recent meeting of the Board of Trade at Rimby it was resolved to offer Sam Morris, of Lacombe, the job of food killer within the city limits of Rimby. We have it on good author-

ity that Sam refused the job, giving as his reason that although the remuneration offered was liberal, there would be too much work attached. Also that as he would have to start in on some of the members of said board, he was not clear as to who would then be liable for payment of his salary.

A longing worry of the bride of the future will be hubby's growl about the home brew mother used to make.

A petition is being circulated and largely signed praying the post master general at Bentley to provide a rest and recreation room for the accommodation of the expectant public who have to hang around during the three or four hours necessary for the sorting of the mail.

Messrs. Thorp & Bros. recently brought a truck from Edmonton which will be put on the road (in charge of engineer and conductor Tom Whitworth) to compete with the Peanut in hauling freight between Bentley and Lacombe. We hear the St. Hon. G. B. Garries is also having his McLaughlin truck overhauled for the same purpose. These enterprises would indicate that the citizens of Bentley do not anticipate any speedy reduction of freight rates by the government on the Blindman Valley Peanut Railway.

Anyone desirous of purchasing a nobby team at a price commensurate with the present low price of farm produce, should apply to Old Mac on the Bentley-Gilby road. He offered his jenny mare and her mate, to Ted Zenoist recently for \$15.00. The team are guaranteed not less than five year old.

Lawson, the Bentley "Ice Cream King," proposes erecting a covered room with the post office. He figures this will add greatly to the business of his establishment as well as catering to the convenience of the assembled multitudes awaiting the opening of the mail delivery window.

I saw a man from the Niagara district of Ontario lately. He told me the fruit growers there set out large quantities of grape slips last year. If the vote in Ontario goes against the

importing of slips per express, as it did in Alberta, they (the fruit growers) intend putting out large areas in vineyard, as they feel sure the call of the home brewer for the fruit of the vine will be loud and insistent. Should the vote go the other way, it will be little trouble to destroy the slips that will not then be needed.

**McLAUGHLIN**

CANADIAN NATIONAL RAILWAY STATION VANCOUVER-B.C.

**THIS car has been truly called the Utility-Standard of Canada.** Possessing the rugged McLaughlin quality, the Master Six power and endurance, it surely represents the maximum value in a high-powered six. In body lines, power plant and internal mechanism the Model 21-45-R is a replica of the new Master Six. It is mounted on the well-balanced Master Six Chassis. In finish and appointments it upholds the McLaughlin reputation for coach-building.

Ask to see this new model in either five or seven passenger body styles.

MECHANICAL GARAGE RED DEER

the Shereers were not concerned in this: the McKnights brought the four Smith horses on the range, but the McKnights, Mr. Cameron and the magistrate had a hard time getting a clear idea of what was going on. The McKnights were not stealing the Smith horses; back in his mind there appeared to be some idea that the McKnights had taken horses from the McKnights, though the law called it stealing. Though Owen swore that Jim and McKnight bent the neck of the young steve, Owen believed the McKnights went on horseback. Owen's story was that the paring of the McKnights was friendly; witness was that the McKnights had taken away two horses which the Shereers sent them. Mr. Russell had never advised him to swear falsely at the Red Deer trial, but he had advised him to tell the Stettler trial. Though swearing to the

of cells, Mr. Macbratton—John and Bill McKnight, the McKnights on the billie of the witness saw in Mr. Russell's office, on the right hand side, he thought, that the McKnights were not stealing horses the McKnights took belonged to a man near Hig Willow which the Shereers had taken in with the McKnights making such a confession, but he did not hear anything he said.

**Carlos Shereer.**  
Court resumed at 2 p.m.  
Carlos Shereer, under cross-examination, was examining the evidence for stealing four Smith horses; he had been in Alberta for nearly six years, he had been in the United States though he committed perjury. He knew it was wrong to lie, and much worse to lie under oath. He knew for the first time Mr. Russell's instance; he

[illegible]

Mr. Russell implicated by the Shearman, he had made no conversation with the Department concerning the case.

Mr. Cameron then dealt with the remainder of sentence, which he termed a most unusual situation in that it did not meet it before. The Judge took full responsibility for the suggestion, and quoted precedent in discussing his room with the lawyers, what to do with it. Shearman had pointed out to them that they were not to give the sentence, for which he was not prepared; suggested that the sentence would not consider in so grave an offense, and a remark for sentence.

The Crown Lawyers had been in his hands, making no suggestions.

the next court of competent criminal jurisdiction.

The Crown was willing to accept Mr. Russell's personal bond for a nominal amount. Mr. Macdonald said that, because of a Mr. Cameron said they were quite ready to give bail.

The court closed shortly after six o'clock.

EVERYTHING FOR THE HOME

51 First St. South Red Deer, Alta.

## A SQUARE DEAL FOR THE SETTLER

is the Aim of the Western Canada Colonization Association. It Can Be Realized Through Co-operation from the Prairie Provinces. Legislation Necessary to Ensure Success.

By J. W. Dufour, Editor-in-Chief of The Manitoba Free Press.

In times of difficulty and distress the dependence of all sections of the community upon one another is revealed far more clearly than in periods of abounding prosperity when the need for co-operative action is not so apparent.

At the moment Canada is faced with a problem of immense magnitude; how to induce the rapid and successful development of the vacant lands in the west in proximity to the railway lines.

The old immigration movement—the combined result of many independent agencies, among them the government, railways and land companies—was pretty well over before the war came to put a complete stop to enterprise of this type.

Now the factors of the problem are so changed that the old agencies, if they could be revived and got back to work again, could not renew their old success. Everything is changed; the character of the settlers required, the nature of the appeal that must be made to secure them, and the machinery by which they can be transported and placed in locations where their presence will be advantageous to themselves and of benefit to the country.

The immigrants most needed are people who will come with a view to securing farm homes for themselves; they must have a moderate amount of capital now that there are no more free homesteads, and experience in farm work, or at least aptitude for it, is desirable. There is no lack in the world today of people of this type to whom the prospect of a home in Western Canada, if it could be brought before them, would be a most desirable appeal, just as there are available for them the very homes they desire if some method can be found of bringing the vacant lands and the home-seeker together.

The Western Canada Colonization Association has come into existence in the expectation that it will be able to render a great public service by devising and carrying out plans by which the desirable immigrant in other lands over the sea, or south of the line, would be secured, brought to Western Canada, placed on suitable land and given such encouragement as may be necessary to make him a contented and prosperous settler.

The Western Canada Colonization Association will direct its energies primarily to inducing the right kind of settler to come to Canada. It will do this work in co-operation with every agency existing or hereafter to be called into being devoted to the same purpose. The more the better.

## PREMIER STEWART WILL BE INVITED TO OPEN THE FAIR

Directors Met Saturday Afternoon and Made Preparations for the Big Fair, July 18-19-20.

The arrangements for the Red Deer Fair are being speeded up now, as the actual Fair time draws near. The Directors met in the city hall Saturday afternoon and transacted a lot of business.

There were present, President E. W. Bjorkeland in the chair, Secretary J. E. Walton, C. C. Gamble, P. W. Galbraith, E. S. Hogg, H. W. Wilson, A. R. Gibson, J. F. Day, Dr. F. McEwan, L. A. Parry, D. W. McKinnon, Mrs. D. W. McKinnon, Mrs. J. C. Houghton, Mayor Collinson, and Reeve Fluke of Pine Lake M.D.

The following accounts were passed: Red Deer Advocate, \$2.50; Red Deer School District, 61; C.P.R. Telegraphs, \$4.45.

No replies had been received to the call for tenders for hay. The President and Secretary are a special committee to secure supply of hay.

Two dozen large drinking cups will be secured for the larger fowl.

P. W. Galbraith, C. C. Gamble and J. A. McEwan were confirmed as a committee on special prizes.

A cheque for the Provincial Government grant, \$3,150, has been received.

A further letter was read from Hon. Duncan Marshall, expressing regrets that he was unable to make a special grant for Club Club exhibit.

A discussion took place regarding the ownership of certain buildings on the Fair grounds that the Society had built. This matter was raised by an enquiry received from the City Commissioner. The Society had shown assets of \$475 in the last annual report based on a valuation of the buildings so constructed. The city had been carrying the insurance on these buildings as well as the others on the grounds. Mayor Collinson asked the Directors that he was not there specially to back up the Commissioners' letter; the city would not put any hindrance in the way of the Agricultural Society, but would help in any way possible.

The following resolution was passed, clearing up the matter: That this Society, to facilitate control and maintenance of the buildings on the Fair grounds, disclaim ownership in favor of the city in the buildings erected by the Society out of the Society's funds, comprising 3 stock barns, booths, etc.

The Soldier Settlement Board wrote that it had no funds for paying per diem to men attending a judging school such as the Society proposes to conduct here this year. They would see what could be done in the matter of transportation.

The Glendide Horse Association offer 2 medals for competition as heretofore.

New regulations passed by the Department make the holding of Institutes optional with the Society.

The National Records Association found records in order for paying the 1917 Agrarian grant. The Secretary has succeeded in cleaning off all the old impending grants.

A regulation will be printed in the prize list whereby any exhibitor who does not give full registration pay

provided they work towards a common object and co-operate to this end.

The Association is not a land selling agency. It has no interest in any particular district, and is not concerned in the disposal of privately held lands. Yet it is very obvious that it is essential for Western Canada that they will require land.

If they can get the land they want at the price that meets their wish, the plan will work. After the first throb and settlers are successfully placed the current of immigration will set in steadily and will never cease until the vacant places in the west are filled.

But the successful placing of the settler after he is secured in the west is a foundation stone of the enterprise; lacking it, the movement must fail.

The Western Canada Colonization Association have asked the people of Western Canada to attend themselves to this matter, of such vital importance to them, through the agency of their own provincial governments.

In the memorial presented to the governments of Manitoba, Saskatchewan and Alberta by the Association, the outlines of the proposed plan are drawn. Briefly, each government is asked to create a land Board for its Province which will list all vacant lands with prices fixed for two years and issue maps and literature showing the location of this land and giving the facts as to the price and the character of the soil. Provision is made insuring a reasonable valuation and every settler will be asked to name agents empowered to make sales.

If this plan is carried out the Western Canada Colonization Association and every other immigration agency operating outside of Canada will be able to put into the hands of the prospective immigrant the information which will make his removal to a new home in Western Canada a business investment instead of a highly speculative venture. He will be able to decide beforehand the district to which he is to go and he will know that when he arrives he will be able to get the land he requires without delay and without uncertainty. The road will be straight before him, and the goal will be in sight.

The beneficial effect upon immigration of an arrangement like this which will offer the incoming settler the assurance of considerable treatment and a square deal will be beyond calculation. It will remove, too, from the whole movement the influence of the suspicion that it is a device for selling land for speculators and put it in its proper light as a great co-operative, disinterested attempt to do a real public service—that of settling the empty spaces of the west on all the incalculable benefits that will follow, in which every interest and every industry will share; the local municipality and school district, the local merchant and railway, the provinces, the cities, and in fact the whole Dominion.

Before November 15 will be felt claim to prize money.

W. J. Stark, Secretary of the Western Canada Fair, wrote giving information on several matters.

A. Galbraith, Superintendent of Fairs, sent details of late legislation and estimated that several Fairs would be on trial this year, and their future would be determined by their performance.

Inspector Fisher promised the co-operation of his staff at the Fair. The Secretary will approach the Scoutmaster with a view to securing the assistance of the Scouts at the Fair.

The Secretary will get checks printed for use this year. The special prize committee will handle the complimentary tickets.

Premier Stewart will be invited to formally open the Fair at 2 p.m., Tuesday, July 19.

The meeting adjourned to meet Saturday, 21st inst., at 8 p.m.

ROCKY MOUNT'N HOUSE

J. A. Birt, our pioneer barber, is spending a few days in Red Deer, undergoing medical treatment.

Bert Stroh will open his moving picture theatre on Centre Street this evening. He is one of the old boys of this district, and along with his being a good fellow, may meet with success.

Harry Bertrand, Geo. Pettit, Harry and James France, Thos. Clark, J. Graham, W. W. Murry and David Atherton were down from Nordège with others on April 19 to see the degree work put on by the local L. O. O. F. boys.

Robert White, of Edmonton, Grand Organizer for the Grand Orange Lodge of Alberta, was here last week looking the ground over with a view of having a lodge opened at this point. We understand there are over twenty Orangemen in and close to the village.

Mr. and Mrs. Wm. Arfman are erecting a fine residence on the corner of Centre St. and Sixth Ave.

Jos. Smith, on Saturday last, accompanied Alf Moberg, who has been ill for some days to Calgary. Upon their arrival there, a doctor of that place at once pronounced Alf to be suffering from pneumonia, and had him taken to the General Hospital.

The local L.O.O.F. Lodge will hold the 1922 anniversary service of the Order in their hall on Sunday, May 16, at 2 o'clock in the afternoon. The entire service will be conducted by brothers of the Lodge, and a cordial invitation is extended to everybody to come.

In spite of the cool evening and the busy season, the sports committee of the Agricultural Society had a very successful dance in the Society's hall last evening. The music was furnished by Messrs. Findlater and Milnes, and the floor was handled by Mr. Wm. Symonds; the total proceeds amounted to \$45. The sports committee will be holding another dance on the evening of May 24.

Levi Spangnough, of Ferrier, left on Tuesday morning for Drumheller near which point he has accepted a foreman position on a section on the C.N.R.

## "LUCKY DAY FOR ME," SAYS TANNIC

Winnipeg Man States Tannic, Began Helping Him at Once and Soon Restored His Health.

"All my friends know what I think of Tannic. I have been recommending it ever since I restored my health," said Robert Harrow, of 368 Alexander Ave., Winnipeg, who is a warehouseman for McDonald and Chapman, wholesale grocers.

"Two years ago I had the flu, and then last year I had a setback and the two together simply knocked me out. My stomach was left all upset and I was beginning to think I would never get right with me and I would have the worst sort of pains and aching until my heart beat at a terrific rate. My nerves were so shattered I would lie in bed wide awake for hours and hours. I got so weak I thought I would give out, and it was beginning to look like I might as well quit trying to ever get well."

"It sure was a lucky day for me when I got hold of Tannic. I saw a change for the better right away, and by the time I had finished the fifth bottle I was absolutely well. My appetite is simply fine now and I have picked up several pounds in weight. I feel as fine as I did even before I had the flu the first time, and I am glad to go on record as endorsing Tannic."

Dated this 20th day of April, A. D. 1921.

gary.

**D. A. BRUCE.**  
Post Office Inspector.  
Post Office Inspector's Office,  
Calgary, Alta., 8th April, 1921.

**A LITTLE NONSENSE  
NOW AND THEN**

Bolton: "What are you doing for your  
cold?" Vickers: "Coughing."

"That young bride worships her  
husband, doesn't she?" "Well, she  
places burnt offerings before him  
three times a day."

Molly: "She's a finished vocalist.  
don't you think?" Herbert: "I'm not  
sure; I fear she's going to sing  
again."

Miss Younger: "What, in your opin-  
ion, is the best time for a girl to mar-  
ry?" Miss Elder: "When the man is  
willing!"

"Mr. Growler: 'I am never able to  
find anything in this house.' Mrs.  
Growler: 'Oh, yes, you are! You al-  
ways manage to find fault.'"

Teacher: "What does the reign of  
King Charles the First teach us?"  
Tommy: "Please, no, and to lose our  
heads in moments of excitement."

"Did your watch stop when it dropped  
on the floor?" asked a man of his  
friend. "Of course, it did," was the  
reply. "Did you think it would go  
through?"

Brown: "I haven't seen your son for  
a good many years. He seemed  
quite a promising lad." Jakeman:  
"Too promising. He's been sued  
twice for breach of promise."

Scott, at the baths: "What's the  
price of a bath?" Attendant: "Ours  
shilling." Scott: "Heh, man, that's a  
lot. Can you say no acceptance and put  
in less water?"

Kitty: "My dressmaker says it is  
quite a pleasure to fit a gown on me.  
Edith: 'Considers a sort of artistic  
triumph, I suppose? The true artist  
delights in difficulties?'"

Nervous individual: "Well, Mrs.  
Nipper, I think it's quite time the  
passage walls were repaired." Land-  
lady: "Pardoning me, sir, but I am wait-  
ing to see how your 'cella goes on."  
Coffins is such things to knock the  
paper off!"

"When you get your groceries to-  
day," said the butcher to his wife,  
"don't go to that little grocer next my  
shop." "Why not?" she demanded.  
"Because he sent in yesterday and  
borrowed an old pair of my slacks!"

"You waste too much paper," said  
the editor. "But how can I econo-  
mize by writing on the back of the  
last issue?" "But you must accept stories  
written on both sides of the sheet." "I know;  
but you'd save paper, just the same."

Professor: "There is not anything  
that has three feet and four feet."  
Student: "I know of two things that's not three."  
Professor: "What are they?"  
Student: "A yard and a three-legged stool."

A benevolent old gentleman had  
taken a special interest in his  
friend's son. "Suppose," he said one  
day, "that I should give you a thou-  
sand pounds, what would be the first  
thing you would do with it?" "Count  
it," said the promising youth.

Friend: "So yours was a case of  
love at first sight?" Mrs. Loveloy:  
"Yes, indeed. I fell desperately in  
love with my dear husband the first  
moment I set eyes upon him. I re-  
member it all as distinctly as if it  
were yesterday. I was walking with  
papa on the promenade, when sud-  
denly papa stopped, and pointing him  
out, said, 'There, my dear, is a man  
worth one hundred thousand pounds.'  
And, of course, I soon captured him."

As Mrs. Jones was going away for  
the day, she told her maid, Ella, that  
she might have a holiday; too, but  
that she must lock the house up se-  
curely and put the silver away in a  
safe place. When Mrs. Jones came  
home in the late afternoon her feet  
pains may be imagined as she read  
the following note pinned on the front  
door: "Dear Mrs. Jones—I have hid-  
den the silver securely under your  
bed.—Lovingly, Ella."

He had made a huge fortune out of  
painting, and was showing a friend  
around his private gallery. After ex-  
plaining about his best works, he sud-  
denly stopped before an immense  
piece of canvas, and said: "This is my  
masterpiece. I painted it 19 years  
ago. I was very poor and struggling  
in those days, and would gladly have  
taken £50 for it. Now fifty thousand  
pounds! I don't want it." "So," returned  
the visitor, evening the masterpiece close-  
ly, "and I am one of those fifty thou-  
sand."

**PAT'S EXAMPLE**  
At the finish of the great game  
there was, as is usually the case after  
a football match, a wild rush for the  
exit. Pat, a spectator, survived the  
pushing, hustling throng contemptu-  
ously and, turning to a pal, remarked:  
"Shure now, if I were any of the spal-  
peens did as Ol did, and stayed quietly  
in their places until I were any had  
gone out, there wouldn't be such a  
crush for the very out. Sejabbers, there  
wouldn't."

**HIS NEW FARM HAND.**  
Hiram Meadows was an old-fash-  
ioned farmer. He firmly believed in  
that quaint and worn-out saying,  
"Early to bed and early to rise—"  
How does the rest of it go? He  
couldn't get along at all with any  
modern type of farm hand. So, after  
thinking matters over, Hiram decided  
to use a strapping young fellow, and  
resolved to keep that hand at any cost.  
Accordingly on the first morning he  
waited until four o'clock before sound-  
ing the breakfast call. "Get out of  
there quick if you want anything to  
eat!" "Thanks very much," growled  
the gem. "But I never can eat any-  
thing just before going to sleep."

**SOMETHING NEW.**  
An elderly lady was buying a New  
Year's present for her married daugh-  
ter. She asked to be shown some  
tablecloths. The salesman brought a  
pile and showed them to her, but she  
didn't like them. He then showed her  
something "new?" she asked. The  
salesman brought another pile and  
showed them to her. "These are the  
newest patterns," he said. "You will  
notice that the centre is exactly in the  
middle, and the border runs round the  
edge." "Isn't that lovely?" said the  
lady. "I'll take half a dozen of these."

**COUNCIL SETS SUM  
GERMANY MUST PAY  
AS REPARATIONS**

Required to Hand Over Sum of  
6,000,000,000 Pounds Sterling in All

London, May 3.—The supreme coun-  
cil yesterday reached a substantial  
agreement on the terms to be imposed  
on Germany. In principle it is agreed  
that Germany is under obligation to  
pay the allies 6,000,000,000 pounds  
sterling. She will be required to pay  
100 million pounds yearly, plus 25 per  
cent. on her exports.

This obligation on the part of Ger-  
many shall be acknowledged by the  
issue of Germany of bonds bearing five  
per cent. interest. Of these, a cer-  
tain amount shall be issued immedi-  
ately, a second lot in November,  
and thereafter as many more as she  
has ability to pay. How the bonds  
are to be paid off is still a matter of  
discussion. These terms will be in-  
corporated in the ultimatum, which  
expires on May 12, and which will be  
sent to Germany as soon as the de-  
tails of the terms are definitely de-  
cided upon, probably at the meeting of  
the council tomorrow.

When the German payments amount  
to more than the sum required,  
the council will be entitled to require  
the further bonds. The intention  
of the plan, according to a British  
official, is to proportion Germany's ob-  
ligations after a certain figure, to her  
ability to pay. The drafting commit-  
tee is still at work on the details of  
the terms, but hopes to conclude its  
report in time for today's meeting,  
which will be attended by the mili-  
tary and naval experts.

The protracted meeting is under-  
stood to have been due to the long  
discussion of the guarantees to be  
demanded of Germany for payment  
of reparations, there being at the  
start a considerable divergence of  
opinion. Finally, however, an agree-  
ment was reached.

Premier Brand announced this  
evening that he must return to Paris  
Thursday night, though the meeting  
tomorrow is expected to be final.

**ROD AND GUN FOR MAY**  
Among the other interesting stories  
and articles of outdoor life Canada  
that appear in Rod and Gun in Canada  
for May, is one entitled "A Wonderful  
Salmon Expedition." This describes  
an expedition after the "big fellows"  
in Newfoundland. For the fishermen  
there are two other stories: "Palling  
From Grace" and "The Heart Cure."  
In this issue of Canada's outdoor  
magazine, "Hunting and Shooting"  
and "The Parson Goes Hunt-  
ing" as the titles indicate, are hun-  
ting stories that will appeal to the  
voice of rifle and shot gun. Great  
interest is being shown in the big  
game hunting articles written by A.  
Bryan Williams; one installment of  
his splendid series of articles appears  
in this issue. Fishing Notes and  
Guns and Ammunition departments,  
are up to their usual high standards.  
Rod and Gun in Canada is published  
monthly by W. J. Taylor, Limited,  
Woodstock, Ont.

**GOLF NOTES**

The course is in good shape and  
play is progressing nicely.  
J. R. McClure, Phone 30 or 150, is  
President.  
W. H. Wright, Phone 81, is Sec'y.  
Treas.

H. F. Kenny, News Office, Phone 54,  
is Match Secretary.

**PLEASE NOTE**  
Nobody need walk to the golf  
course. Members with cars will be  
kind to take others with them at any  
time. Use your phone.

Also, when you want to go home,  
don't hesitate to make your inten-  
tions known.  
Ladies will please take particular  
note of this.

**HANDICAPS**  
The Handicap Committee met on  
Thursday evening, and decided on the  
following as a basis for this season's  
operations:

W. J. Stephenson	30
A. B. Mitchell	16
G. H. Lindsay	16
G. H. Lindsay	16
Dr. MacKenzie	18
Dr. John	30
Ed. M. Smith	30
Dr. DeLong	40
Dr. Shastick	24
G. C. Gamble	24
Dr. MacCrosbie	30
H. J. Bayley	30
R. B. Walker	30
R. B. Walker	16
Dr. Morgan	24
Dr. Morgan	24
A. B. Gibson	Scratch
T. R. Johns	30
R. White	22
D. A. Smith	24
Dr. Dick	30
E. G. Johnson	34
W. H. Wright	34
Dr. Wagner	30
C. A. Ayling	30
Imp. Fisher	38
Dr. Wagner	30
Geo. P. Simons	32
P. M. Fowler	38
W. A. Moore	36
J. R. McClure	10
Judge Mahaffy	40
Dr. Collison	20
A. T. Stephenson	20
A. H. Moyes	40
B. Cantick	24
Ernest M. Smith	20
Gus. McPherson	12

The following are requested to turn  
in three score cards each, to the  
Match Secretary, H. F. Kenny, as  
soon as possible, to provide a basis  
for arranging handicaps:

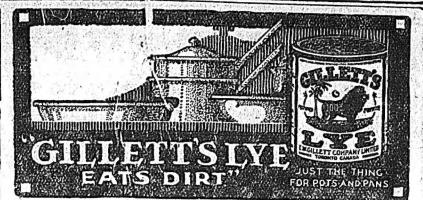

C. F. Carwell, W. Day, H. N. Herd-  
man, J. Greig, Irish, D. McGregor,  
W. E. Payne, P. Swanson, A. H. Rus-  
sell, T. Edin, H. M. Willson, C. Collins,  
G. W. Ball, H. C. Munn, W. E. Lord,  
R. L. Gaetz, Geo. Muir, and any  
others who intend to join the club  
and compete in the matches.

The membership fee of \$3.00 and the  
fee of \$2.50 for playing privileges for  
ladies is now due and payable to the  
Sec'y-Treas. W. H. Wright.

**MAY BREEZES**

A. T. and R. B. were playing a  
round the other day, and at the 4th  
hole, R. B. remarked: "This is just  
a drive and a putt." After he struck  
at the ball, A. T. replied: "Now for a  
H— of a putt."

Geo. Lindsay threatens to quit the

game unless the Club establishes a  
deducted.

**RULES**  
After May 1st a player having a  
ball out of bounds, i.e., inside a fence,  
plays another from the same place,  
and counts two additional strokes.  
A ball lying in a wagon rut, which  
is off a regular road, may be lifted  
and dropped without penalty.  
All clearly marked roads are haz-  
ards, and the ball must be played out  
of them. A player who touches the  
ground in such a hazard while ad-  
dressing the ball loses the hole and  
is disqualified in a stroke competition.

**FIRST COMPETITION**  
A sweepstake competition will be  
held over the week-end. Cards may  
be obtained from the Match Sec'y, H.  
F. Kenny, at The News Office, 107  
25c. Suitable prizes will be provided  
from the fund. This will be a stroke  
competition over 18 holes (two con-  
secutive 9-hole rounds, played on the  
same day) the lowest score, after de-  
ducting handicaps, to count. Mem-  
bers are urged to take part and hand-  
icaps in their cards, no matter what their  
score is as handicaps will be read-  
justed from them. Cards must be  
handed to Mr. Kenny by noon on  
Monday.

**MITCHELL CUP**  
The draft for the Mitchell Cup will  
be made as soon as all members have  
received their handicaps and not  
later than June 1st.

This is a hole and hole competition,  
the player who wins the greater  
number of holes out of the 18 win-  
ning the game. In case of a tie three  
extra holes are played. It is also a  
handicap event, and as many of the  
members have not played match golf  
before, the greatest care must be ob-  
served in seeing that strokes are taken  
at the proper holes.

**PASTE THIS IN YOUR HAT**  
How the handicap works in the  
hole and hole game: As the holes have  
to be played over twice, all handicaps  
are in even numbers to save confu-  
sion. Strokes are allowed according  
to the size of the handicap and the  
relative difficulty of the holes.

The holes in order of difficulty are:  
5, 8, 9, 7, 2, 1, 6, 3, 4. A player  
with a handicap of 2 strokes will re-  
ceive them at the 5th hole on each  
round; 4 strokes at the 5th and 5th  
on each round; 6 strokes at the 8th,  
5th, and 9th on each round, etc.

A player with a handicap of 16 strokes  
will receive them at every hole on  
each round, except the 4th, which is  
the shortest. A handicap of 18 means  
a stroke of every hole on both rounds.  
Players who receive over 18 strokes  
will take a stroke at every hole and  
deduct 18 from their handicap. What  
is left over will be allotted as above.  
In case the handicap is over 36, the  
player will receive 2 strokes at every  
hole, and what is over 36 will be  
allotted as above.

**CLUB CUP**  
A Club Cup will be provided, which  
will be competed for in stroke  
competition over 36 holes, handicaps

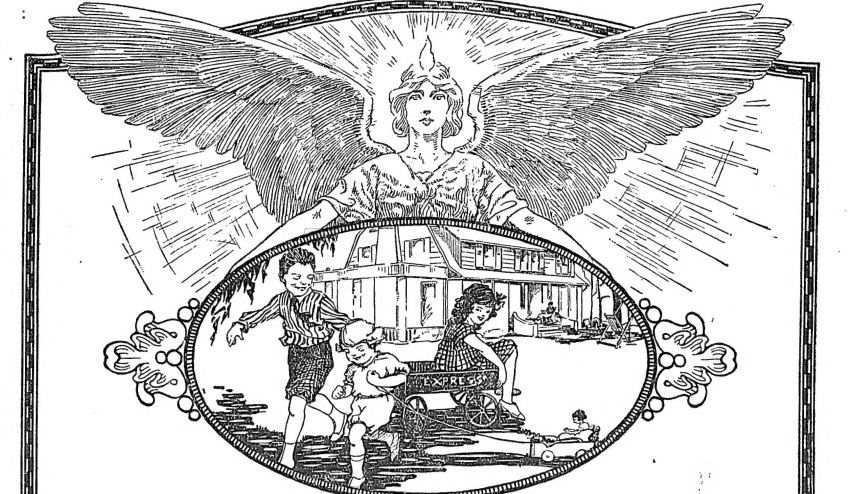

**Leg that  
Wouldn't  
Heal**

"Ever since a boy of fourteen,"  
writes Mr. John Redmond, of West  
Frampton, Que., "I had trouble with a  
bad leg. I used many remedies. Though  
some appeared to help the leg for a  
while, it always broke out again as  
bad as ever. This last time I suffered  
continuously for nine years, and the old  
remedies had absolutely no effect."

"The limb was in an awful state  
when someone advised me to get  
Zam-Buk right away. I had only used  
this herbal healer a few days when I  
began to see great improvement. So I  
continued the treatment, for even  
Zam-Buk, needed time to have complete  
effect. However, I am glad to tell you  
that it was only by the aid of Zam-buk  
that the leg was eventually thoroughly  
healed. Never a sign of the ulcer since."

**Only Needed  
Zam-Buk**

30c. box, all dealers.

**THE PROTECTING ANGEL**

To make the lonely road less difficult  
for the widow—to provide food,  
clothing and an education for the father-  
less children—that is the function of life  
insurance and was the aim of the founders  
of the Mutual Life when they organized  
the Company fifty-one years ago.

In order to achieve that purpose at  
the lowest possible cost to the policy-  
holder the Company was organized on  
a purely mutual or co-operative basis—  
so that all profits are returned to the  
policyholders to reduce the cost of  
insurance.

This Mutual principle has been fol-  
lowed for more than half a century.  
The Mutual Life of Canada has held  
steadfastly to the ideas and ideals of  
its founders. It has been an "Angel  
of Mercy" to thousands of desolated  
Canadian homes.

The wonderful record of the Mutual Life  
of Canada, which has paid in death claims  
and other benefits no less than \$35,320,716,  
and has assurances in force to-day of  
\$206,000,000 is proof that it is prac-  
ticable to carry on a business on the principle  
of "each for all and all for each."

Have you a Mutual Policy in your home?
